

Lab 1

Name of Lab

Student Name

Date

ECEN 250

Objectives

The objectives go here...

Preliminary

Preliminary stuff goes here...

Procedures

Equipment and supplies

- Include equipment here

Procedure

Step by step instructions go here. Include tables and graphs (see Table 1 and Figure 1). Make reference to them in your procedures. Next I measured the rise time, fall time, and percent overshoot (see Table 1).

Table 1: Name of Data

	Calculated	Measured
Rise Time	2.0 sec	2.4 sec
Fall Time	1.5 sec	1.6 sec
Percent Overshoot	10.0 %	8.2%

Include more steps... I found the steady state error to be 1 (see Figure 1).

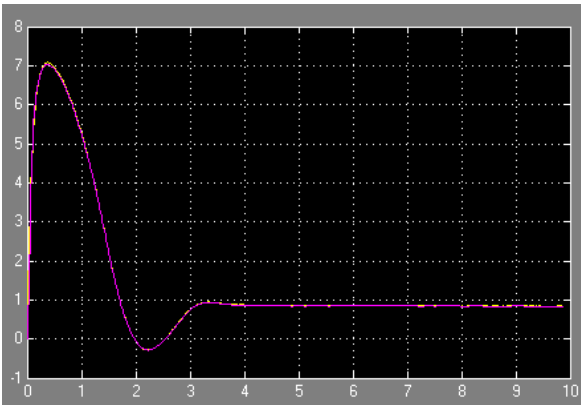

Figure 1: Steady State Error

Conclusion

Conclusion goes here and is more than a few lines...
